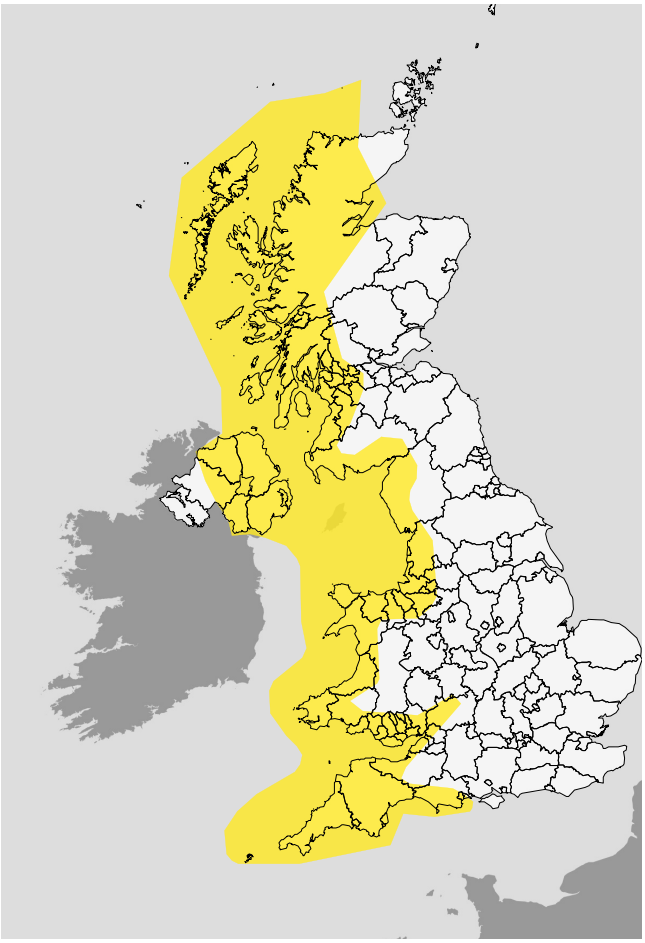
Yellow warning
Wind

Between
09:00 Wed 28 Nov 2018 and
23:59 Wed 28 Nov 2018



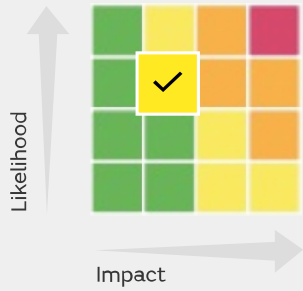
A spell of windy weather is expected to affect western parts of the UK.

What to expect

- Some delays to public transport are likely, and journey times could take longer.
- Delays for high-sided vehicles on exposed routes and bridges likely
- Some local short term loss of power and other services is possible.
- It's likely that some coastal routes, sea fronts and coastal communities will be affected by spray and/or large waves

Further details

A very unsettled spell of weather is expected, with strong winds, combined with widespread and in places heavy rain. Winds are expected to increase from the far southwest early on Wednesday, spreading northeast, with areas adjacent to the Irish Sea most exposed to the south to southeasterly wind. Wind gusts of 60 mph are expected, with a few more exposed locations seeing 70 mph gusts. Winds will also turn west to southwesterly across Northern Ireland and western Scotland later, transferring the main focus for strong winds here, then finally to northern Scotland through the evening.



Medium likelihood of low impacts

Issued at 11:08 Mon 26 Nov, 2018 Updated at 09:45 Tue 27 Nov, 2018

Yellow warning
Wind

Between
09:00 Wed 28 Nov 2018 and
23:59 Wed 28 Nov 2018

Further Details (continued)

The strong winds will also bring some rough seas and large waves, with some coastal impacts possible.

Winds will moderate across the south of the warning area by evening and then across remaining parts overnight.

Reason for update

Warning area extended to cover northern and western Scotland, with the validity period extended until midnight.
